Headline retail inflation in March is estimated to have edged higher, driven largely by rising fuel prices, economists said. Headline retail inflation stood at 3.2% in February and 2.75% in January.

No price volatility despite West Asia conflict: Govt

SANDIP DAS
New Delhi, April 6

“There is no ‘unusual volatility’ in prices of essential agricultural commodities due to the West Asia war, a senior government official said on Monday.

“We are keeping a close watch on the food security situation in the country and monitoring prices of food commodities while ensuring adequate supply,” said Anu-

pam Mishra, Additional Secretary in the Department of Consumer Affairs, at a briefing.

On pulses, Mishra said the government currently holds a buffer stock of 2.8 million tonnes (MT), including 0.7 MT each of chana and tur, which can be deployed for market intervention if required.

He added that the government has approved duty-free imports of tur and ur to augment domestic supplies.

LNG disruption prompts 2.5 MT urea import plan

SANDIP DAS
New Delhi, April 6

TO ENSURE ADEQUATE availability of fertiliser for the upcoming kharif season, Indian Potash Ltd has floated a tender to import 2.5 million tonnes (MT) of urea.

According to the tender document, 1.5 MT of urea will be imported through ports on the west coast, while the remaining volume will be shipped through ports on the east coast.

The move comes after domestic urea production was disrupted last month, as LNG supply—the key feedstock for fertiliser production—was affected due to the closure of the Strait of Hormuz.

LNG imports from Qatar and the United Arab Emirates (UAE) are routed through the Strait, which has been blocked amid the ongoing West Asia conflict.

NR Bhanumathi, Director at Madras School of Economics, said there is upward pressure on urea prices, but the extent to which the shock will be transmitted will take time to fully materialise. He also highlighted rural depreciation as another factor that may have raised the cost of intermediate goods across the supply chain, potentially pushing up costs of intermediate commodities.

Gaura Sen Gupta, Chief Economist at IDFC First Bank, said the rise in inflation is also due to adverse effects apart from increases in liquefied Petroleum Gas, Aviation Turbine Fuel and kerosene prices.

“Petroleum Refiner Kindly note that during this window, shares to be transferred in dematerialised (Demat) form and shall be under lock-in for a period of one year from the date of registration of transfer. Further, securities shall not be transferred / lien-mortgaged / pledged during the lock-in period. Further, securities which have been transferred to the Investor Education and Protection Fund (IEPF) shall not be considered under this window for processing.

The urea shipments are completed to leave ports by June 14, Indian Potash, which imports urea on behalf of the government, said. The government on Saturday also extended the state trading enterprise (STE) status for Indian Potash for importing urea on government account until March 31, 2027.
